

Members: Alex Rea, Emma Capirchio, Gabriel Carillo

This week I worked on:

- Gabe
 - User Homepage
 - Layout for user homepage coded with tailwind css
 - Visual for user homepage code without functionality
 - Added only authorized user functionality to user homepage
 - Created modal for create task/create list feature
 - Visual for the modal created without functionality
 - Registration page
 - Layout for registration page coded with tailwind css
 - Added error proofing to registration form
 - Users can now register for the app using email, username, and password
 - Login Page
 - Added tailwind css to login page
 - Registered users can now log into the site
 - Added error proofing to login form
- Alex
 - Coded layout for about page
 - Coded layout for contact page
 - Coded layout for service page
 - CRUD operations for the tasks - started but will be completed this week
 - CRUD operations for lists - started but will be completed this week
- Emma
 - Began designing and coding admin functionality
 - Began CRUD operations for admin page

In the upcoming week I plan to:

- Gabe
 - Continue coding functionality to user homepage
 - Create a task feature
 - Create a list feature
 - View tasks due today view feature
- Alex
 - Search functionality - being able to search for a task or list, still need to be able to add a task or list first
 - Debug tasks and lists pages – finish up code, debug, and making sure everything works
- Emma
 - Admin functionality - need admin login visual and CRUD operations

Impediments/roadblocks

- Gabe
 - Issue with registering users
 - Registered users not showing in database (fixed)
 - Issue with login to site
 - Hashed password issue not matching (fixed)
- Alex
 - Issues with using PHP Storm on laptop
