This week was mostly team based, as we needed to work together to come up with ideas and work together on creating the technical design and ERD.

This week I worked on:

- (1) Designed ERD for project
- (2) Created technical design and file structure
- (3) Made adjustments to prototype based on feedback

In the upcoming week I plan to:

- (1) Creating tables in database
- (2) Begin individual coding assignments
- (3) Continue working on strategy plan

Impediments/roadblocks

- (1) Issues connecting to MySQL Database
