This week was mostly team based, as we needed to work together to come up with ideas.

This week I worked on:

(1) Brainstorm ideas for proposal (team)

(2) Agreed on Creating To-Do List application (team)

(3) Submitted revision of proposal, highlighting major and secondary features of proposal (team)

In the upcoming week I plan to:

(1) Create database ERD for project

(2) Create wireframe for project

(3) Plan out color scheme for project

Impediments/roadblocks

(1) Coming up with a list of features that we would be able to implement within the time frame
